### **South Atlantic Bancshares, Inc. Reports Earnings of 45 cents per Diluted Common Share For the Six Months Ended June 30, 2020**

*Myrtle Beach, South Carolina, July 21, 2020* – South Atlantic Bancshares, Inc. (“South Atlantic” or the “Company”) (OTCQX: SABK), parent of South Atlantic Bank (the “Bank”), today reported net income of \$3.4 million, or \$0.45 per diluted share, for the six months ended June 30, 2020, compared to \$3.1 million, or \$0.41 per diluted share, reported for the same six months ended June 30, 2019. Net income for the three months ended June 30, 2020 totaled \$2.1 million, or \$0.28 per diluted common share, compared to \$1.8 million or \$0.24 per diluted shares, reported for the same three months ended June 30, 2019. During the quarter, net income attributable to the Company’s participation in the Small Business Administration (“SBA”) Payroll Protection Program (“PPP”), created under the Coronavirus Aid, Relief, and Economic Security Act, was \$467 thousand.

### *Financial Highlights*

- Return on average equity was 7.48 percent for the six months ended June 30, 2020, compared to 7.66 percent for the six months ended June 30, 2019.
- Return on average assets was 0.86 percent for the six months ended June 30, 2020, compared to 0.92 percent for the six months ended June 30, 2019.
- The net interest margin, on a tax-equivalent basis, was 3.95 percent for the six months ended June 30, 2020, a 30-basis point decline from 4.25 percent for the six months ended June 30, 2019.
- Total loans grew 22.98 percent from \$553.1 million at June 30, 2019 to \$680.3 million at June 30, 2020.
- Total deposits grew 27.99 percent from \$636.8 million at June 30, 2019 to \$815.0 million at June 30, 2020.
- Total assets grew 25.51 percent from \$736.1 million at June 30, 2019 to \$923.9 million at June 30, 2020.
- The Company originated 1,013 loans under the PPP, totaling \$91.7 million and generating estimated total fee income of \$3.8 million. During the quarter, the Company recognized \$447 thousand of the \$3.8 million in estimated fees generated by originating PPP loans, with the majority of the remaining balance expected to be recognized over the next several quarters.
- Asset quality continues to be pristine with non-performing assets to average total assets at 0.04 percent as of June 30, 2020 compared to 0.06 percent reported for the same six months ended June 30, 2019.

The economic shutdown necessitated by the ongoing novel coronavirus (COVID-19) pandemic has resulted in loss of business for many of our customers and the effects continue to be felt throughout the markets we serve. A recent surge in cases in the Myrtle Beach and Charleston markets has resulted in additional limitations and safeguards being implemented by state and local governmental authorities, which will delay the efforts of businesses to work toward normal operations until it is safely possible to do so.

Wayne Wicker, Chief Executive Officer and Chairman of the Board of South Atlantic, said, “During the first six months of the year, our Company met the challenges presented by the ongoing COVID-19 pandemic and its ensuing economic pressures. We were a strong participating lender in the SBA’s PPP, processing 1,013 loans totaling approximately \$91.7 million during April and May of 2020. We also responded to the needs of our borrowers by granting short-term loan modifications to those who are or may be unable to meet their contractual payment obligations due to the effects of the COVID-19 pandemic. Our financial performance thus far in 2020 reflects solid loan growth, exclusive of the PPP loans that we originated, along with a pleasing increase in deposits. The reductions in the federal funds rate by the Board of Governors of the Federal Reserve System (the “Federal Reserve”) and the temporary closing of non-essential businesses to help stop the spread of the COVID-19 pandemic contributed to reduced financial ratios compared to last year. However, we believe we are well-positioned for growth when the effects of the COVID-19 pandemic wanes.”

## Operating Results

Net income for the six months ended June 30, 2020 totaled \$3.4 million, or \$0.45 per diluted common share, compared to \$3.1 million, or \$0.41 per diluted share, reported for the same six months ended June 30, 2019. Net income for the three months ended June 30, 2020 totaled \$2.1 million, or \$0.28 per diluted common share, compared to \$1.8 million or \$0.24 per diluted shares, reported for the same three months ended June 30, 2019.

## PPP Loans

The Company was a participating lender in the SBA’s PPP and originated 1,013 PPP loans, totaling \$91.7 million, in rounds 1 and 2 of the program. 966 of such PPP loans, or \$58.0 million, were for principal amounts of less than \$350 thousand, as reflected in the table below.

Gross origination fees from the PPP loans that we originated are currently expected to total approximately \$3.8 million, based on our current expectations with respect to the eligibility of such PPP loans to qualify for loan forgiveness.

Accordingly, we expect our effective yield on PPP loans to be approximately 4.31 percent.

## Net Interest Income

Net interest income increased \$1.0 million or 8 percent to \$14.2 million for the six months ended June 30, 2020, compared to \$13.2 million for the six months ended June 30, 2019, and increased \$740 thousand or 10.9 percent to \$7.5 million for the three months ended June 30, 2020, compared to \$6.8 million for the same three-month period in 2019. The increase during the six-month period ended June 30, 2020 compared to the same six-month period in 2019 resulted from a 15.2 percent increase in interest-earning average asset balances due primarily from the increased interest income from loan growth of 13.9 percent for the six months ended June 30, 2020. Net interest income to average assets was 3.61 percent for the six months ended June 30, 2020, compared to 3.91 percent for the same six-month period in 2019, and 3.59 percent for the three months ended June 30, 2020, compared to 3.84 percent for the same three-month period in 2019. The decline during the six-month period ended June 30, 2020 is due primarily to a 16.7 percent increase in average assets and a 10.8 percent decline in our earning asset yield compared to the same six-month period in 2019.

## Net Interest Margin

Net interest margin, on a tax-equivalent basis (“net interest margin”), decreased 30 basis points on a year to date comparison (and decreased 29 basis points excluding PPP loans) from 4.25 percent at June 30, 2019 to 3.95 percent at June 30, 2020. The decrease in net interest margin is primarily the result of the 150 basis point cut in the federal funds rate by the Federal Reserve in March 2020, resulting in a 49 basis point drop in loan yield for the six months ended June 30, 2020. As shown in the table below, our cost of deposits has declined from a high of 0.96 percent at June 30, 2019 to 0.39 percent as of June 30, 2020. We may continue to experience margin compression due to the continued decline in loan yields, slower cost of deposit declines, higher levels of liquidity related to the COVID-19 pandemic and possible interest reversals. Offsets to our net interest margin compression are our lower cost on deposits and the impact of our participation in the SBA’s PPP.

Net interest income and the net interest margin are affected by purchase accounting accretion and amortization entries associated with the fair value measurements recorded effective September 1, 2018. Interest income on loans totaling \$178 thousand were recorded during the six months ended June 30, 2020, compared to \$186 thousand in the six months ended June 30, 2019. Purchase loan accretion amounts vary from period to period as a result of periodic cash flow re-estimations, loan payoffs, and payment performance.

## Noninterest Income and Expense

Noninterest income totaled \$3.9 million for the six months ended June 30, 2020, compared to \$2.3 million for the six months ended June 30, 2019. Noninterest income for the three months ended June 30, 2020 totaled \$2.2 million, compared to \$1.5 million for the same three-month period ended June 30, 2019. The increase in noninterest income was primarily related to increased mortgage origination and gains on the restructure of the Company's investment portfolio. For the six months ended June 30, 2020, noninterest expense increased \$1.5 million to \$13.0 million, compared to \$11.4 million for the six months ended June 30, 2019. For the three months ended June 30, 2020, noninterest expense increased \$651 thousand to \$6.5 million, compared to \$5.8 million for the three months ended June 30, 2019. The increase in noninterest expense for the six month period ended June 30, 2020 compared to the same six-month period in 2019 is primarily related to increases in compensation, benefits and occupancy related to the COVID-19 pandemic and expansion of our market presence during 2019. Expense control measures are being implemented by the Company where feasible. However, additional costs of working remotely and the deep cleaning of offices due to the ongoing COVID-19 pandemic may offset these expense control measures.

## Loan Loss Provision

Our provision for loan losses for the six months ended June 30, 2020 and 2019 was \$855 thousand and \$330 thousand, respectively. This increase in the provision for loan losses is due primarily to the increase in loan growth from June 30, 2019 to June 30, 2020, in addition to the anticipated economic impact of the COVID-19 pandemic. For the three months ended June 30, 2020, the provision for loan losses was \$610 thousand, compared to \$165 thousand for the three months ended June 30, 2019. The provision for the three months ended June 30, 2020 consisted of \$445 thousand in general factor increases primarily related to the impact of the ongoing COVID-19 pandemic on credit risk, among other factors.

We continue to closely monitor our loan portfolio and will make provision adjustments based on modeling and loan portfolio performance. The allowance for loan and lease losses at June 30, 2020 was \$6.1 million, or 0.90 percent of total loans (or 1.04 percent, excluding PPP loans), compared to \$4.7 million, or 0.86 percent of total loans at June 30, 2019.

In addition, we have granted loan modifications or deferrals to certain borrowers on a short-term basis of three to six months. As of June 30, 2020, we have provided short-term modifications or payment deferrals to 90 loans totaling \$67.2 million, or 11 percent of total loans outstanding, excluding PPP loans. Modifications of principal payments only make up \$27.2 million of loans, or 4 percent of total loans outstanding, while \$40 million of loans, or 7 percent of total loans outstanding, are interest and principal deferrals. The following table shows the number and amount of loans provided with short-term modifications and is organized by NCIAS sector code:
