MYRTLE BEACH, S.C., July 25, 2023 /PRNewswire/ -- South Atlantic Bancshares, Inc. ("South Atlantic" or the "Company") (OTCQX: SABK), parent of South Atlantic Bank (the "Bank"), reported consolidated net income of \$2.5 million, or \$0.33 per diluted common share, for the three months ended June 30, 2023, a slight increase compared to the three months ended June 30, 2022.

## Second Quarter 2023 Financial Highlights:

- Net income for the quarter was \$2.5 million, representing a 11.0 percent return on average equity
- Year-to-date net income totaled \$5.6 million, a 24.9 percent increase over the same period in 2022
- Total deposits grew \$21.2 million for the quarter to \$1.3 billion, and have increased \$61.3 million year-to-date
- Interest income increased \$5.5 million or 48.8 percent compared to the second quarter of 2022
- Total assets increased \$47.6 million during the quarter to \$1.5 billion, a 12.9 percent annualized increase
- Total loans increased \$46.8 million during the quarter, a 17.8 percent annualized increase
- Year-to-date tangible book value per share has increased by \$0.81 or 7.2%

Commenting on the second quarter 2023 results, the Company's Chairman and Chief Executive Officer, K. Wayne Wicker, remarked, "The second quarter of 2023 was another successful quarter for our Company. We experienced strong loan and deposit growth during the quarter. Our deposits grew by \$21.2 million during the quarter, despite intense competition in the market. While our net interest margin contracted in the second quarter due to rising cost of funds as a result of the continued rising market interest rate environment, our strong loan growth continues to boost earning asset yields to partially offset increased interest expense. We grew loans by \$46.8 million during the quarter, bringing our total loan growth year-to-date to \$92.7 million. Demand has remained high in all of our markets. Our credit quality and risk indicators remain excellent, despite uncertain forecasted economic conditions due to the continued rising interest rate environment and persistent inflation in the U.S. As we move forward in 2023, we are focused on achieving operating efficiencies, identifying opportunities for expense reductions, and delivering appropriately margined growth through strong underwriting and our conservative credit culture."

## **Earnings Summary**

Net interest income decreased \$156 thousand, or 1.5 percent, to \$10.3 million in the three months ended June 30, 2023, when compared to \$10.5 million in the three months ended June 30, 2022. The decrease during the period was driven by a \$5.7 million increase in deposit-related interest expense due to competition from bank and non-bank alternatives, and the migration of a portion of the Company's deposit balances from noninterest and low interest bearing deposits to higher cost savings, money market, and time deposits during the period. The Company also experienced reduced interest income quarter-over-quarter of \$235.0 thousand from the recognition of deferred fees from the Bank's then-remaining Paycheck Protection Program loans, the remainder of which were forgiven by the Small Business Administration or otherwise paid off during the second quarter of 2022. The decrease in net interest income during the second quarter of 2023 was partially offset by a \$5.1 million increase in interest income on the Company's loan portfolio due to increased yields and volume, as well as an increase of \$440 thousand from the Company's investment securities portfolio.

Noninterest income declined \$13.0 thousand, or 0.9 percent, to \$1.5 million for the three months ended June 30, 2023 when compared to the three months ended June 30, 2022, primarily due to a market driven reduction in secondary mortgage fee income of \$389.0 thousand, partially offset by an increase in service charges of \$244.1 thousand. The increase in service charges during the period was related to a one-time recognition of an early withdrawal penalty on a certificate of deposit.

Noninterest expense decreased \$24.5 thousand, or 0.6 percent, to \$8.4 million for the quarter ended June 30, 2023, when compared to \$8.5 million for the quarter ended June 30, 2022. An expense savings of \$238.3 thousand, or 4.4 percent, was recognized for salary and employee benefits for the second quarter of 2023 versus the second quarter of 2022. Other noninterest expense during the period, including public relations and business development activities, audit expense with the implementation of applicable audit and reporting requirements under the Federal Deposit Insurance Corporation Improvement Act of 1991, and check fraud losses, increased \$224.1 thousand, or 11.2 percent.

## **Credit Quality**

Net interest margin

Effective January 1, 2023, the Company adopted the Financial Accounting Standards Board's Accounting Standards Update 2016-13, Measurement of Credit Losses on Financial Instruments, including the current expected credit losses ("CECL") methodology for estimating the allowance for credit losses. The CECL methodology requires earlier recognition of credit losses using a life of loan, expected loss methodology that incorporates reasonable and supportable forecasts into the estimate.

3.29%

3.76%

3.63%

3.36%

2.92%

The Company's adoption of the CECL methodology resulted in a \$960,000 day-one reduction in required reserve levels under CECL. The Company recorded a provision for credit losses during the three months ended June 30, 2023 of \$180 thousand compared to a provision of \$325 thousand for the three months ended June 30, 2022.

We continue to see excellent credit quality in our markets through June 30, 2023, with no loans classified as non-accrual, and no loans past due greater than 30 days as of June 30, 2023.

The Company continues to closely monitor credit quality in light of the recent events in the banking industry, including the recent bank failures, and a continued worsening of forecasted economic conditions due to the rising interest rate environment and persistent high inflation levels in the United States and our market areas. Accordingly, additional provisions for credit losses may be necessary in future periods.
