**MYRTLE BEACH, S.C., January 19, 2022 /PRNewswire/** -- South Atlantic Bancshares, Inc. ("South Atlantic" or the "Company") (OTCQX: SABK), parent of South Atlantic Bank (the "Bank"), reported consolidated net income of \$10.8 million, or \$1.42 per diluted common share, for the twelve months ended December 31, 2021, an increase of \$3.7 million, or \$0.46 per diluted common share, compared to the twelve months ended December 31, 2020. Consolidated net income was \$2.3 million, or \$0.29 per diluted common share, for the three months ended December 31, 2021, an increase of \$411 thousand, or \$0.05 per diluted common share, compared to the three months ended December 31, 2020.

"We are very pleased with our financial performance for the year ended 2021. Our earnings improvements continued through the fourth quarter of 2021, reflecting higher than anticipated loan growth and deposit growth, while maintaining a strong credit culture. We believe our earnings will continue to improve into 2022 with solid balance sheet growth, though we expect to continue to experience some net interest margin compression in the current low interest rate environment. We are encouraged by the activity in our loan pipeline and believe we are well-positioned for future growth in all of our markets," said K. Wayne Wicker, Chairman and Chief Executive Officer of South Atlantic

### Earnings Summary

Net income for the twelve months ended December 31, 2021 totaled \$10.8 million, or \$1.42 per diluted common shares, compared to \$7.2 million, or \$0.96 per diluted common share, reported for the same twelve months ended December 31, 2020. Net income for the three months ended December 31, 2021 totaled \$2.3 million, or \$0.29 per diluted common share, compared to \$1.8 million or \$0.24 per diluted common shares, reported for the same three months ended December 31, 2020.

Net interest income was \$35.8 million for the twelve months ended December 31, 2021 compared to \$30.0 million for the twelve months ended December 31, 2020, an increase of \$5.8 million, or 19.2 percent, primarily due to the recognition of \$3.8 million of Paycheck Protection Program ("PPP") fee income resulting from PPP loans that were forgiven by the Small Business Administration ("SBA") or otherwise repaid during the twelve months ended December 31, 2021, as well as an increase of \$2.3 million in interest income for the twelve months ended December 31, 2021 on securities due to increased securities holdings, and a \$1.4 million decrease in interest expense for the twelve months ended December 31, 2021. Net interest income was \$9.2 million for the three months ended December 31, 2021, an increase of \$1.0 million, or 12.3 percent, compared to \$8.2 million for the three months ended December 31, 2020. This increase during the three months ended December 31, 2021 is primarily due to an increase of \$931 thousand in interest income on securities due to increased securities holdings and a \$115 thousand decrease in interest expense, partially offset by a decline of \$445 thousand of PPP fee income resulting from PPP loans that were forgiven by the SBA or otherwise repaid during the period compared to the three months ended December 31, 2020.

Discount accretion included in the net interest income was \$307 thousand for the twelve months ended December 31, 2021 compared to \$349 thousand for the same period in 2020. For the three months ended December 31, 2021, accretion was \$74 thousand compared to \$82 thousand for the same period in 2020.

Noninterest income increased \$1.9 million, or 23.3 percent, to \$9.8 million for the twelve months ended December 31, 2021 compared to \$8.0 million for the twelve months ended December 31, 2020. This increase in noninterest income during the twelve months ended December 31, 2021 is primarily due to a \$1.2 million increase in secondary mortgage fees and a \$579 thousand increase in merchant card activity and debit card fees compared to the twelve months ending

December 31, 2020. Noninterest income declined \$182 thousand, or 8.5 percent, for the three months ending December 31, 2021 compared to the three months ending December 31, 2020. This decline in noninterest income during the three months ended December 31, 2021 is primarily due to a \$340 thousand decrease in secondary mortgage fees compared to the three months ended December 31, 2020.

Noninterest expense increased \$3.2 million, or 11.7 percent, to \$30.7 million for the twelve months ending December 31, 2021 compared to \$27.5 million for the twelve months ended December 31, 2020. This increase in noninterest expense during the twelve months ended December 31, 2021 is primarily due to salary and benefits expenses increasing by \$2.2 million due to increased commissions on mortgage production, the hiring of six full time equivalent employees related to opening of the Bank's eleventh branch office on Hilton Head Island, South Carolina, the hiring of support personnel due to the Bank's growth in all of its markets, and increased FDIC deposit insurance costs related to the growth in deposits during the period. Noninterest expense increased \$399 thousand, or 5.4 percent, during the three months ending December 31, 2021 compared to the three months ending December 31, 2020 primarily due to a \$194 thousand increase in salaries and benefits due to mortgage commissions and personal costs related to the Bank's new Hilton Head Island branch office, and a \$303 thousand increase in occupancy costs related to depreciation acceleration on furniture, fixtures and equipment. Our effective tax rate for the twelve months ended December 31, 2021 was 19.8 percent compared to 17.6 percent for the twelve months ended December 31, 2020. This increase can be attributed to a reduction in non-taxable income on securities in 2021 compared to 2020.

This increase in total assets during the twelve months ended December 31, 2021 is primarily due to an increase of \$209.0 million in investment securities and an increase of \$95.0 million in total loans, partially offset by the forgiveness of \$48.0 million of PPP loans by the SBA during the period, thus reflecting overall loan growth of 13.8 percent year-over-year. Total deposits increased \$247.2 million to \$1.1 billion as of December 31, 2021 compared to \$834.8 million as of December 31, 2020.

## Net Interest Margin

Net interest margin, on a tax equivalent basis ("net interest margin"), declined by 25 basis points to 3.54 percent for the twelve months ended December 31, 2021 compared to the same twelve-month period in 2020. The decline in net interest margin during the twelve months ended December 31, 2021 is primarily attributed to the 48 basis point decrease in the earning asset yield, partially offset by the 25 basis point decline in the cost of deposits as a result of the continued low interest rate environment.

Net interest margin declined 6 basis points to 3.32 percent for the three months ended December 31, 2021 compared to the three months ended September 30, 2021. The decline is primarily attributed to the 6 basis point decrease in the earning asset yield and the 1 basis point increase in the cost of deposits.
